

*Playing field is 6 dominos x 10 dominos.*

*Notes by number:*

- 1. This is the root of the tree.
- 2. The blank side can be used to match the five so this domino makes a Tee and starts two new branches.
- 3. Blank can match a four. L joint is used to avoid running into edge of play field.
- 4. Another L joint -- for no particular reason.
- 5. Can't place this domino here because it would go out of bounds. So the branch must terminate.
- 6. It's OK if a Tee domino sticks slightly out of bounds. However, the lower branch cannot be extended.
- 7. This branch could only be extended by using an L joint that turns back toward the trunk.
- 8. These branches want a six to continue growing.
